ABOUT ME

I am a self taught digital 3D artist residing in New York State.

I strive to maintain artistic integrity, while providing my clients with high quality creations within even the most abbreviated of deadlines.

My passion for media creation along with my background in independent film, has lent itself greatly to providing my clients with both quality and extended artistic value. I believe strongly in respecting my clients vision, while maintaining a solid consistency to create the most professional end result within often limited time frames. Possessing a genuine love for what I do applies itself to all aspects of my work, providing consistent and trustworthy communications to better reach my goals.
